This motoryacht was designed by Trimm Design and built by the renowned shipyard Altena Yachting - Raamsdonksveer (NL). This modern lined steel motoryacht with hydraulic fin stabilizers, straight bow, high / safe sailing all around and covered aft deck with electric convertible roof makes this yacht unique in its class. The yacht has two spacious 2-person cabins with own shower and toilet en-suite. From the steering position there is good visibility all around with direct access to the side deck by the two side doors, the ship can also be easily operated during mooring by means of the Hydronautica remote control. The saloon and the aft deck can be fully connected by 4-part foldable rear door. A full tent around the aft deck (removable) ensures a comfortable atmosphere even in bad weather. In the fixed roof over the aft deck is an electrically operated convertible roof. Via the aft deck there is access to a very spacious engine room with plenty of headspace. The sidedecks run completely freely all around. A nice addition to the technology on board are the two spud poles with which finding a fixed mooring spot in shallow water is child's play and it offers almost complete (habitable) autonomy on the water. This Altena 54 Next Generation is equipped with: Integrated cockpit bench with cushion set on aft deck + fixed table with wooden top, TV on lift in saloon + TV in owner's cabin, electrically height-adjustable saloon table, 2 x side door (SB+BB), pleated curtains, ATAG dishwasher, large electric sliding roof above steering position, camera system for visibility in the engine room + aft deck, Fusion audio system with speakers in the ceiling of the saloon, Mastervolt Easyview 5 display, Yachtcontrol software for operating and reading boat information/systems, Siemens washing machine + Siemens dryer, tanks with manholes, hydraulic maxilift deck crane on the aft deck minimum 200 kg to maximum 500 kg depending on the length of the crane arm, electric foldable mast for a minimum clearance height of approx. 3.65m.
